- * Your Crystallized Game Plan
- * Conclusion - Your Journey To Riches

Introduction of Babylon

Babylon was the capital city of Babylonia, a kingdom in ancient Mesopotamia, between the 18th and 6th centuries BC. It grew into one of the largest cities of the ancient world and it became a city of beautiful and lavish buildings.

Unlike many cities that fell and disappeared, Babylon was resilient, rising from the ashes time and again, even as new invaders came and took over. Babylonian citizens saw their city as a paradise, as no ancient city was so desired and feared, yet so admired.

As it grew in power, Babylon also produced the largest amount of wealthy citizens in the world, thus, the wisdom of achieving richness and gold has been passed down through time from it's people long after Babylon has perished.

In 539 B.C. less than a century after it's founding, Babylon fell to the invasion of Persian King Cyrus who conquered Babylon.

Til date, the Babylonian remains were known to be in Iraq, about 50 miles south of Baghdad, but the legacy of the wisdom from it's people on acquiring richness will always remain.

6 Golden Mindsets To Multiply Your Wealth

The rich people have a game plan when it comes to wealth.

But most important, the mindset they adopt when it comes to acquiring wealth is different from the most people, that's why they are wealthy!

Good news?

You don't need to be special, talented and gifted to do so.

You just need to understand and apply the principles and multiplying your wealth will become simple!

Imagine having a windows 95 computer. You probably can't even open the current raw text documents!

Having these 6 Golden Mindsets will convert your mind into the latest super computer that allows you to attract wealth effortlessly!

Apply them into your life "RELIGIOUSLY" and you will see your wealth MULTIPLY!

Golden Rule 1 - Burning Desire

If you have no BURNING DESIRE to acquire richness, nothing else will!

Having a burning desire transcends all other emotions.

Most people 'hope' to become rich. Some even 'wish' to have more money. But in the eyes of Lady Fortuna, you need to DEFINITE when it comes to acquiring wealth!

The more definite you are, the more wealth you will get!

If you look back across time, you will realise that the richest people on earth have all possessed 'burning desire'.

People like Ray Kroc, Thomas Edison, Steve Jobs, Arnold Schwarzenegger.

To activate your burning desire within, here are a few practices that you can take...

1. Write down all the successes you acquired in your life. (NO MATTER HOW SMALL)
2. Recall and remind yourself that you are capable of achieving things you set your mind to.
3. Use the Wealth Vessel Expansion 8 Week Tracks to make your burning desire stronger!

Golden Rule 2 - Final Decision

There are two groups of people in the world.

Those who procrastinate, and those who draw a line, cross it and NEVER LOOK BACK.

Being wealthy also means that you are able to make decisions quickly.

When you say you're gonna do it, it's DONE. No exceptions.

Lady Fortuna rewards those who 'tries', but she SHOWERS WEALTH to those who are definite in their decision!

It's simply a switch!

Procrastinate > Try > Final Decision!

Strengthen your decision making muscles and practice making final decisions!

“When you say it's done, it is no longer in the future. It's in the past, and you DO it.” - Robert G. Allen

Golden Rule 3 - Crystallized Plan

You see, while most people dabble and 'wish' their way to riches, wealthy people have a crystallized plan when it comes to making things happen.

Why?

Clarity is POWER.

When you are crystal clear about your game plan, you draw immense power into your life.

Let's say you intend to start making an extra \$1000/month from home.

What's your crystal clear plan?

Most people will do nothing and forget about their decision after a couple of days.

But this is what makes you DIFFERENT.

You plan out the baby steps until you reach fruition.

For instance, step 1, you are going to take out 30 minutes to serve the web and shortlist 5 potential make money from home ideas.

Step 2, you will do more intensive research on the 5 potential money making ideas and decide on which one you prefer to go ahead with.

Step 3, you will buy books/courses on how to get started on building your money making machine on X date and set clear

concise goals on every step along the way.

You see, if you lay out all the baby steps, you CANNOT fail! It is impossible!

Take some time off today to reflect on your money goals. What is it you want to achieve? How are you getting there?

Map it out and you shall be rewarded!

Golden Rule 4 - Die Hard Persistence

The ultimate measure of a person is not where he/she stands in moments of comfort and convenience, but where he stands at times of challenge and controversy. -Martin Luther King, Jr.

It is easy to say you are motivated, driven and all when the going is easy. But when you are faced with obstacles and insurmountable challenges, would you say the same?

Persistence is a trait that anyone can develop.

But die hard persistence is a “GOLD-MIND” that a person can ever possess.

Here’s what you can do to awaken your die-hard-persistence mind set.

1. **KNOW** why you are doing this in the first place. Once you know your reasons, you will be fuelled with your burning desire.
2. **KNOW** how to adapt when you are faced with challenges. Learn how to rest, but **NEVER** quit.

Everyone who is successful faced multiple challenges and it can be tiring some times. You can take a short break, recharge and come back stronger! No one expects you to be superman.

3. **Positive Mental Attitude!** If you trained your mind to be positive, your outlook will be completely different.

Negative mind when faced with challenges: This won’t work. I’m not good enough...

Positive mind when faced with challenges: Hmmm interesting.

I'm grateful for this obstacle because I know if I can solve this, I'll become more powerful and I'll make more money. Let's crush it!

See the two different perspectives?

The good news is, you possess both the negative mind and the positive mind. Which means, you get to choose!

Choose positive always!

Golden Rule 5 - Like Minded Association

If you want to go fast, go alone, if you want to go far, go together.

But... I don't know anyone in my city. I'm alone.

Hey, no worries.

Remember when I shared with you about my story?

I was so busy with work and bills that I couldn't even take a day off to meet my friends.

The only thing that kept me company were audio files of successful people.

They say the 5 closest people you associate with, is who you'll become.

What they didn't say, is that these 5 people don't always have to be your real life friends.

For me, I chose authors, speakers and success repeaters.

Look it up, you can easily find them on YouTube! Fill your mind with the way they speak, act and you shall be inspired by their infectious energy.

Remember, everything is energy and it rubs off each other.

If you are hanging around colleagues or people who have no desire to make more money or wealth, chances are you won't have the desire as well.

I'm not saying you have cut of your connections, but rather you should limit the amount of time you are spending with the people that are not aligned with you.

We can still love them from a distance <3

Golden Rule 6 - Constant Personal Growth

The final golden rule is to never stop growing!

You see, our wealth vessel is limitless and how fast or big you want it to grow is completely up to you.

The 8 weeks wealth vessel expansion program will inevitably help you to amplify your wealth, but what's next?

Most people stop learning new things after they graduate.

But possessing that kind of mentality is detrimental to your financial health.

Rich and successful people continue to upgrade their knowledge even after they have made it!

That's the difference that makes all the difference!

Remember this saying, "The rich get richer and the poor gets poorer?"

Well, there are some truths in this statement and if you come to think about it, only 20% of the world read books or pick up a new skill once every year.

Imagine reading a new book or picking up a new skill once every month. How much more will you be potentially making?

Rich and successful people continue to learn month after month like a machine!

The more you learn, the more you EARN!

Babylonian Money System - Part 1

The Babylonian citizens have a set of rules when it comes to managing their 'gold'.

Managing their gold excellently also meant a crystallized game plan to grow their wealth.

I hope you are super excited because you are about to discover the **Babylonian Money System!**

1. Know your numbers.

If you have absolutely no clue about how much you are making and how much you are spending, on what, then there is no chance for you to make changes.

If you can't track, you can't grow!

This is extremely important so I hope you take some time to do this right now!

Knowing your numbers

a) How much money do you currently have in your bank account?

b) What much are your expenses?

Food, bills, transport, rental, tax, other liabilities?

c) How much net income do you have right now? After deducting tax.

d) What are the expenses which you can minimize?

For instance, you may be spending money on something which

you are not utilising at all. Decide to cut it off and you will immediately have more money at the end of the month!

e) What are the unexpected expenses that occur?

If you are losing money every month to some unknown cause, you need to know where it went!

2. Always pay yourself first!

What are the chances that you pay off your bills the FIRST thing you get your monthly cheque?

Probably 90% of the time and the same goes for most people!

If your goal is financial freedom one day, then you need to cultivate the habit of PAYING yourself first.

Paying yourself means setting aside 10% of your income and this is NOT savings!

This 10% is meant to help you to accelerate your financial freedom and wealth by investing into various sources to produce passive income for you.

The formula for financial freedom is simple.

When your monthly passive income exceeds your monthly expenses, you are financial FREE!

You don't have to work a day anymore because money just keeps coming in like clockwork!

=> Find out more about passive income here!

3. Have a money management system in place!

That's what we are going to be discussing in part 2!

Overall, you need to have a management system in place, (don't worry you don't need to have any software or things like that. You just need a pen and a paper.)

In fact, I've created a Babylonian Money Secrets PLANNER just for you to utilize. It is advisable to print it out so you can follow the steps I'm about to share with you ahead!

Babylonian Money System - Part 2

Are you ready for the juiciest part of this entire system?

Before that, I would love to hear from you on your realisations and success stories you have gotten so far!

Remember, any win is a win, no matter how small and it's worth celebrating!

Write to me at becky@fortunamoneyprayers.com

The Babylonian Money Management System

By following his system, your wealth is meant to MULTIPLY without fail!

If you follow this religiously month after month, you will witness your bank account multiplying!

I: Fortune Funds

II: Gold-Mind

III: Monthly Expenditures

IV:: Future Spendings

V:: Give

VI:: Enjoyment

VII: Emergency

You see, the Babylonian money system is split into 7 parts.

Essentially, once your income/pay cheque comes in, you will divide your money evenly across these 7 categories. (You may open several bank accounts to diversify your money. It is optional, most important you can keep track of it.)

I'll first explain what the 7 categories are and an example which you can follow.

I: Fortune Funds (10% Minimum)

This is where you pay yourself first. The first 10% of the money even before you pay your bills.

“What you focus on amplifies.”

Focus on paying yourself and know that this 10% will yield more fruits in time to come.

This fund is not meant to be savings but rather to be invested in various sources to amplify your wealth.

The goal is to achieve passive income by investing this 10% of your money month after month.

II: Gold-Mind (10% Ideally)

In this category, you will diversify another 10% of your income to NOURISH your mind with new ideas, skills that will help you in your journey to become richer than ever.

For instance, if there's a course/book which you are keen in reading or learning, you can use the money from this category to invest in yourself.

Wealth is not determined by the amount of money you have in your bank account, but by the knowledge you possess and how you apply it.

III: Monthly Expenditures (Based on your income)

By now you should be clear about your numbers and how much you actually need on a monthly basis.

Once you know your numbers, the goal is to grow your income and reduce your monthly expenditures to as low as possible in your total 7 categories.

For instance, right now it may look like this.

Monthly Expenditures: 70%

Fortune Funds: 10%

Gold-Mind: 5%

Give: 5%

Enjoyment: 0%

Future Spendings: 5%

Emergency: 5%

You want to eventually cut off more expenses and increase your earning power so that your monthly expenditures can be lowered.

***The lower your monthly expenditures, the higher you can allocate to other categories.**

Monthly Expenditures: 30%

Fortune Funds: 30% (3 X more funds here = 3 X more wealth!)

Gold-Mind: 10%

Give: 5%

Enjoyment: 5%

Future Spendings: 10%

Emergency: 10%

If your total income is lesser than what you need on your monthly expenditures, then there are only two things you can do.

Increase your earning power, or reduce your expenses.

There are many ways you can do to refinance your loans, tax, etc if you really want to.

Anything is possible if you put your end to it!

IV: Future Spendings (0% - 10%)

This is the category where you intend to save up for your kids education, your future house, a dream car, a vacation etc...

It's more of a luxury category and it's a good way to motivate yourself when you see this funds growing!

V: Give (5 - 10% Ideally)

Remember, Lady Fortuna rewards those who give.

It is important to give forward when you have made some money because what goes around, comes around.

You can be donating this amount to a charity organization or some meaningful cause.

You can even give away this money to some one on the streets like I did. It is up to you :)

VI: Enjoyment (5% - 10% Ideally)

Now, for the spenders out there, this might just be your favourite category of all. Now you can spend this amount of money without GUILT!

Enjoy it! You deserve to have fun and spend money on the things you like!

Pamper yourself!

For savers, this is the category that will balance you. Learn to part with money and reward yourself time to time.

You'll realise that money comes BACK to you!

It's not that scary after all ;)

VII: Emergency (10% Ideally)

The final category is for emergency purposes.

Do you know that 60% of the people in the world cannot afford to fork out \$500 in case of an emergency?

That is super risky and you don't ever want that to happen!

Ideally, you want to allocate 10% of your money every month to this fund until you hit a savings of at least 3 months of what you need on your monthly expenditure.

For instance if your monthly expenditure is \$2000/month?

Then you would continue to allocate 10% month after month of

your income into this category until it hits \$6000.

After which, you can choose to no longer allocate money to this emergency category.

Your Crystallized Game Plan

Now that it is all clear to you, it is highly recommended that you begin KNOWING your numbers, setting your financial goals and managing your money excellently.

Most importantly, this is all about HABIT.

You don't get it overnight so you need to apply it, that's why I've created a planner for you for FREE!

Claim it in the download section and start implementing!

Conclusion - Your Journey To Riches

The goldmine you want is now within your reach because you already possess the knowledge and what's left is your action plan towards it.

I'm so proud of you and I truly admire your desire and willingness to change your financial life.

I look forward to your breakthroughs and success and I want to HEAR from you!
