Growing Your Money

My dear friend. It doesn't matter where you are, what your occupation is. All that matters is your burning desire to grow your wealth and your willingness to take action.

I respect you for coming this far! We are half way through and you should be very proud of yourself!

Remember, feel free to write to me about your success stories (becky@fortunamoneyprayers.com) No matter how big or small the success is, it is WORTH celebrating!

Success ATTRACTS more success!

Now, like I mentioned, it doesn't matter how much you are earning right now. As long as you apply the principles in Babylonian Money Secrets and follow the 8 weeks wealth vessel expansion program your wealth will inevitably grow!

Growing your money is no magic. It's simply math.

If you have more money coming in, than going out, month after month your money will GROW! Period!

The more important questions is, how do you speed it up?

If you are currently working in a job right now, you probably have only 4- 8 hours free time left in a day. (Considering 8 hours for sleep and 8 hours for work)

Out of this 4-8 hours, you may be travelling to work, doing house chores, spending time with family etc...

However, this is also your most precious time because this is

the ONLY time you can actually take advantage of, to create extra income to eventually free yourself financially.

There are lots of ways to go about it, but the rule of thumb is to be able to “LEVERAGE”.

If you are trading your time for money, you are not leveraging.

Once you stop trading your time, your income stops as well.

However, if you find lucrative opportunities that allow you to SCALE without spending more time, then it is worth taking a shot.

In today’s world, there are plenty of opportunities out there for you to explore when it comes to making money.

The first of change is always awareness.

Now that you know you have the ability to GROW YOUR MONEY with the free time you have daily, it is time to make some plans.

Here are some books I recommend you read when it comes to growing your wealth.

- Multiple Streams Of Income - Robert G. Allen
- Circle Of Profits - Anik Singal
- Dotcom secrets - Russel Brunson
- Expert secrets - Russel Brunson
- Rich Dad Poor Dad - Robert Kiyosaki

- The intelligent Investor - Benjamin Graham

With this level of awareness right now, you are already ahead of most people. You have the power and the decision to influence the course of financial life moving forward.

Listen to this week's Wealth Vessel Expansion track and remember to make plans on growing your money!

Plans don't need to be drastic. You can begin the end in mind, for instance, if you want to be pursuing a new opportunity say (affiliate marketing).

Then the first baby step you can take is perhaps watching YouTube videos or finding out more about what it is - Day 1

Next you can shortlist a few courses or books to buy - Day 2

Decide and go ahead with 1 course/book - Day 3

Start reading XXX no. of pages on that topic - Day 4

Plan on how long you intend to complete the book/course - Day 5

Continue absorbing content - Day 6 etc etc..

You see, BIG changes begin with baby steps.

I believe in you, you can do it <3
